Robinson Wilkes Again Achieves “Top Gun” Ranking from Efron-PSN

First Quarter performance puts R&W second among domestic large cap investment firms

San Antonio - May 25, 2001 – Robinson Wilkes today announced that for the second time it has been ranked as a “Top Gun” by Efron Enterprises, Inc., owner of the PSN investment manager database, based on the firm’s Equity Composite returns for the quarter ending March 31, 2001.

Robinson Wilkes’s Equity Composite performance ranked second among 1042 participating products in PSN’s domestic large cap universe. Among others in the top ten were Harris Associates, Warwick Capital, and Armstrong Shaw. Qualified investment professionals use the PSN investment manager database to assist with manger selection.

“We are very pleased for our clients to see our investment process competing favorably against the broader domestic large cap universe, and not just in the domestic large cap value universe,” said Michael Wilkes, member and investment officer of Robinson Wilkes.

Please see the attached report showing [rankings](#) from Efron PSN.

Established in 1976, EFFRON is the pioneer of automated systems designed to track and evaluate investments and investment managers. Today, EFFRON is considered a leading resource of data and analytical software for the investment industry. They provide a wide range of products and services designed specifically for the plan sponsor, institutional investor, consultant, and investment manager.

In 1984, EFFRON introduced the first investment manager search and evaluation database - PSN. PSN is an advanced software application offering investment professionals high-quality, in-depth data on domestic and global investment managers. Today, pension plan sponsors, investment consultants and brokerage firms use PSN to conduct manager searches and ongoing evaluations. Money managers use PSN for competitive analysis, market research, and new business presentations. Web sites and other software applications import PSN's valuable data to enrich their own product content.
